

Absence and gradebook

Upgrade your Fronter Platform to include the Absence and gradebook module, and help improve the quality and efficiency of your school's monitoring system.

The Absence and gradebook module gives a comprehensive overview of the complete pattern of grades and behaviour among learners.

Why Absence and gradebook

Accurate - Detailed, accurate and up to date attendance information for students attending schools or universities.

Simple - Easy to read interface enabling efficient monitoring of learners' complete pattern of behaviour and absence.

Integration - Smooth integration between Fronter and the school or university's Student Administrative System (SAS).

Stay informed - Make informed decisions when confronting students with academic/social/disciplinary difficulties.

How Absence and gradebook works

Grid or no grid - Option to have fixed or flexible lesson times.

Customised access - Different access for Subject teachers and Tutors.

Grades and behaviour - Form in which grades from tasks and comments on behaviour can be clearly recorded.

Reports - Option to create different reports based on information collected.

Student access - Student access to view their own individual absence and behaviour records.

ILP - Integration with Individual Learning Plan (ILP) tool, empowering students' self assessment capabilities.
