

Increase the status and visibility of your school online – make your school and activities known amongst your local and global community.

With Webfronter, users are able to quickly and easily create their own school and personal websites – all within the Fronter Platform and requiring no additional knowledge or expertise!

How does Webfronter work

Webfronter room - For each website, a Webfronter room is created within your Fronter building.

Similar structure - Folder structures and pages within your Webfronter room, relate directly to menu tabs and pages on your website.

Design - Users have the option to insert images, flash animations and change design colours.

No HTML knowledge necessary!

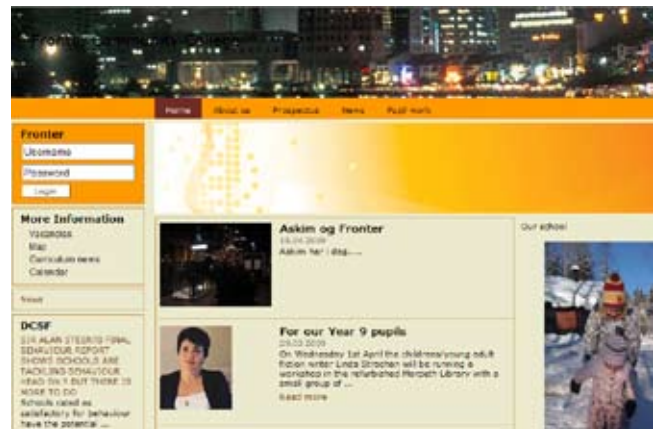

With Webfronter

School websites - Easily create and maintain a school website using the simple Fronter tools you are familiar with.

Easy-to-use templates - Choose from a selection of predefined design templates to get your website up and running in no time.

Easy editing - Edit your website directly online.

Link to dynamic Fronter elements - Link to news, RSS feeds, messages and calendar events from directly within Fronter.

For more information please visit fronter.com or contact your local Fronter office.

* Please Note: Webfronter is a Fronter PlusPack. You must already have a valid Fronter installation to subscribe.
